DA-Session-19-DPP

Assignment Questions

Dataset Link : *Data Validation Dataset*

Question 1
Apply Data Validation to restrict Quantity values to only whole numbers between 1 and 10.

Question 2
Highlight all "Total Price" values greater than $2000 in green using Conditional Formatting.

Question 3
Remove duplicate records where "Order ID" is the same.

Question 4
The "Customer Name" column contains full names. Split them into "First Name" and "Last Name."

Question 5
Use Conditional Formatting to highlight rows where "Category" is "Electronics" and "Total Price" is greater than $1000.
(Hint: Use formula in new rule)

Question 6
Filter the dataset to show only orders from the "North" region.

Question 7
Some "Quantity" values contain text (e.g., "Five"). Find and correct these errors.

Question 8
Identify customers who placed multiple orders by checking duplicate "Customer Names."
